### Objective

Entry-level QA Tester with hands-on training in manual testing, bug reporting, and writing test cases. Bringing strong attention to detail from years of professional work experience. Motivated to grow and gain real QA experience.

### Education

QA Software Testing Course

HackerU (Online) — Completed July 2025

### Key Training:

- Manual Testing
- Test Cases & Test Design
- Bug Reporting (Jira)
- Writing step-by-step documentation
- Understanding SDLC & STLC

### QA Projects

Manual Testing Practice Projects (GitHub):

- Wrote test cases for UI and functional testing
- Reported bugs with clear steps, expected vs actual, and screenshots
- Practiced testing web/mobile flows
- Used GitHub for documentation & version control

### Work Experience

Head of Butcher Department

Hiper Dudu — Petah Tikva, Israel | 2018–Present

- Managed daily operations and inventory with accuracy
- Ensured quality control, safety, and cleanliness
- Organized orders and maintained documentation
- Worked well under pressure
